FRIDAY JULY 27th 1945

NUMBER 14

Funeral Services For Austin B. Stevenson

Funeral services over the remains of Austin B. Stevenson, who passed away last Sunday morning, were held in the St. Paul's (Catholic) Church Tuesday afternoon at 2 p.m. with Bishop Palmer in charge.

Hymns by the choir were "The Day of Wrath" and "Sweet Hour of Prayer." The opening prayer was by Elder Alvin Jones, the benediction by Elder John McMillan, and the grave was dedicated by Elder Axel Stevenson, a nephew of the deceased.

Speakers were Elder J. D. King who took as his text "Who is My Neighbor?" and Elder Jas. S. Anderson who spoke on the Resurrection and the Purpose of Life. Both these men had known the deceased and the Stevenson family for many years and paid tribute to the character of the deceased and the work he had done during his sojourn in Raymond.

On behalf of the family, Bishop Palmer thanked everyone for their assistance and kindness during the illness and death of another of our pioneers.

A. B. Stevenson leaves to mourn his passing the following nieces and nephews: Mary, Shirley, Axel and Margie. Also Doris Hall, whose father was a cousin, also other relatives in the States.

Interment was in the local cemetery and pall bearers were C. A. West, Roscoe Larson, Wm. Parks, Drexel Selman, Tommy Nelson and J. Wolsey, all old friends of the deceased.

BIOGRAPHICAL

Austin Brigham Stevenson, son of James Vickers Stevenson and Elizabeth Quinn was born August 9, 1876, at Ephraim, Utah.

His mother, as a young girl, crossed the plains in the handcart company of saints walking all the way and helping to pull a cart laden with an invalid person. In Salt Lake City she worked in the home of Pres. Brigham Young, for whom he after ward was named. He was the sixth child of a family of eleven children.

As a young man he enlisted for service in the United States Army in the Philippine War, but the war was over before his company was ready to go overseas.

In his youth he participated in sports especially foot racing and walking on his hands.

He was an expert sheep raiser and with his brother's shared in all the large shearing concerns in the Western States, making a record that was hard to beat.

He loved music and singing and used to play an accordion.

He was also interested in prize fighting. Of all his brothers, John was his favorite and when John and his family moved to Canada in 1903 it was not long till Austin followed and he lived with them for a number of years.

He returned to Utah but did not content so when John visited in Utah he came back with him to Canada, remaining for the rest of his life.

In the early days of Raymond he piled sugar for the Knight Sugar company. He also spent several years working for Ray Knight herding sheep and building fences.

Being a bachelor he lived alone as he did not want the burden on anyone.

When his health became such that it was not good for him to be alone he was persuaded to live with his niece who cared for him until his death on July 22, 1945.

Seaman Glenn Organ of the Royal Navy is home on leave for a week or two. He has been flying team for the Raymond Cartage for a few days.

Miss Joyce Dahl, who is working in Calgary was at home over the week-end to visit her mother and brother Seaman Gordon Dahl, home on leave.

LAUGH

Get the laughing habit;
It doesn't cost a cent,
Keep that twinkle in your eye
And make that dimple dent.

Watch the way your mouth is curving;
Keep your chin up high;
Then you'll get what you're deserving;
If you never whine or sigh.

Let no stinging word distress you;
Treat it as a joke,
And face the future with a smile
Yes, even if your broke.

—Mary Sinclair.

EFFICIENT OPERATION OF THE COMBINE

(Experimental Farm News)
From studies being conducted at the Experimental Station, Swift Current and in the United States, many losses incurred in combining can be considerably reduced by the correct adjustment and operation of the machine in the field, says J. L. Thompson of that Station.

Cylinder losses in most machines are small. Most operators keep the clearance to a minimum to get every kernel out of the heads. However, if the straw breaks up badly, it is better to increase the clearance to a maximum and reduce as necessary, otherwise if the straw is broken up too much the racks and shoe become overloaded and more loss will result than at the cylinder. Cylinder speeds should be set as recommended. High speeds break up the straw and overload the racks and shoe and crack grain, while slow speeds do not thresh thoroughly.

Cutting bar losses are usually high. If the grain is lodged, the cutting bar should be lowered and the forward speed decreased so as not to overload the straw racks and shoe. This is important because, if the cutting bar is lowered, more volume is handled and the forward speed should be reduced so as not to exceed the machine capacity. It is not much use lifting the grain in to the machine if it comes out the back end again. Where grain is standing well, the cutter bar can be raised thus saving power and doing a more efficient job.

Rack losses can be excessive if the cylinder is out of adjustment or the forward speed is too rapid. In the first case the straw breaks up too much, and in the other the volume handled is too great. In either case it is impossible to separate all of the grain from the straw. Where the straw breaks up, it is better to increase the cylinder clearance and thus decrease the rack loss. Where the volume of straw is too great, decrease the forward speed.

Where the straw is broken up the fine material filters down the straw racks and forms a mat on the shoe. It can be broken by directing the blast to the front of the sieve and lifting the material. If the blast is increased and is spread over the whole sieve, a lot of grain will be blown over. Better results can be obtained by increasing cylinder clearance and avoiding such conditions on the shoe. The rack and shoe speeds should be checked, run them only at recommended speeds.

Reel losses follow if the reel is driven too fast or is kept too low. The reel should travel slightly faster than the forward speed. The combine will do efficient work if the operator uses good judgment and adjusts the machine to suit conditions as found in the field. It would be well to emphasize again the fact that cylinder losses are usually very small compared to rack and shoe losses if the machine is not adjusted and operated properly.

Churchill Government Resigns

Following the count of the ballots but the Conservative party was defeated in the recent British election the Conservatives will now form the official government and has resigned, and his opposition. We believe that Mr. Churchill has asked Clement Attlee, Churchill will welcome the relief of a new Government from the heavy burdens he has been shouldering for Britain. No announcement carrying, and his advice and counsel of appointments has yet been made will still be available for the benefit of the nation he has given so his cabinet members were re-elected much of his life to preserve.

NEWS NOTES

Mr. and Mrs. Don Rodeback and Mr. and Mrs. Ervin Fawcett and Mrs. Golden Snow were at the Temple visitors in Cardston on Wednesday.

Mrs. August Anderson and daughter of New Dayton were Raymond visitors Monday to see the dentist.

Miss Shirley May returned home Tuesday afternoon after a week's visit with relatives in Cardston.

Mr. and Mrs. A. E. Hancock, Mr. and Mrs. Axel Stevenson and Mrs. Christensen, mother of Mrs. Hancock were at the Alberta Temple on Wednesday.

Mrs. A. B. Ford of Ogden, Utah is visiting here for a couple of weeks with relatives and friends. She is a sister of Bert and Ern Nilsson and Mrs. M. H. Allred.

Glen Ballock, who has been in the Royal Canadian Navy for a year and a half or so has received his first large and is at home again to stay.

Reports state that more Raymond people were in Waterton on Saturday and Sunday than were home. We wondered why Sunday School was so small and probably this is the answer.

Elder Steele Brewerton, who has been laboring in the Saskatchewan district with District President Frank, spent Monday with his folks here in company with Elder Frank who was renewing acquaintances here with Western Canadian Missionaries, and on Monday evening they went to Cardston to participate in the Western Canadian Mission Caravan at the Temple on Tuesday.

All from one Listener

JOHN AVISON, conductor of some of the CBC's most popular programs from the West coast, is pictured here in his Vancouver home as he looks John Avison's orchestra from Vancouver. The CBC Concert Orchestra, directed by Avison, has just concluded its current series on the Trans-Canada network and will return after vacation in two or three weeks. Meanwhile, the young Vancouver conductor has begun a new program, "Gateway to Melody," over the Dominion network of the CBC, Thursday nights at 9:30 p.m. CDT.

Official Nomination Day Friday July 27

W. I. MEETING

The July meeting of the Women's Institute was held at the A.C. Walker farm with the President, Mrs. W. W. McMullin in charge. After singing "O Canada", the flag salute was led by Mrs. Wm. Paris, and Mrs. N. Lash led in the repeating of the Creed. The minutes of the June meeting were accepted with one correction.

There were 26 members present, and 11 visitors, the latter being the members of the Farm Hill group led by their President Mrs. Lash, who were invited guests of the day. Mrs. Frank Hill reported that a donation of \$5.00 had been made for a Parade prize on Nomination Day and the members voted to pay Mrs. Hill for the gas used in taking the members to the Winkler farm for the meeting.

Three aprons were donated, and with Mrs. Lash as Auctioneer they were sold to the ones present at the meeting. The draw for the Fifty Peg was made by Mrs. McElride.

Mrs. Fern Spackman played two piano accordion solos, Mrs. Rolston led the group in community singing and a delicious lunch was served to the group.

On behalf of the Farm Hill group Mrs. Lash thanked the hostess, Mrs. W. I. for their enjoyable afternoon.

GROVE EVESON DECORATED

Warrior Officer James G. Eveson, son of Mr. C. H. Eveson of Raymond, Alberta, serving with the 41st Division of the U.S. Army in the Philippines has been awarded the bronze Star Medal for conspicuous achievements in battle.

The decoration was bestowed upon the assistant adjutant of the 163rd regiment by Maj. Gen. Jens A. Doe, commander of the renowned 41st Infantry Division, at the conclusion of the Jap shattering Zamboanga campaign.

Eveson graduated from Raymond High School in 1934 and matriculated to The Draper School of Commerce in La Grande, Oregon. There he majored in public accounting and played basketball and graduated in 1938.

He enlisted in the Army of the U.S. in April, 1941, and went overseas with the "Northwest's Own" 41st Division 22 months ago. Since then he has fought through two bloody jungle campaigns in New Guinea prior to making two assaults on the Philippines.

Two of the Eveson's sisters, Mrs. D. H. McMillan, Mrs. J. R. Houghton, Mrs. Katherine McKinnon, Mrs. Evelyn Kippen and Miss Jean Rowley assisted in serving.

Out of town guests were Mrs. W. W. Romeril and Miss Elizabeth Romeril, Raymond; Mr. and Mrs. William Rowley, Cardston; and Mr. and Mrs. Edwin Johnson, Turin.

The happy young couple will make their home on the Romeril ranch east of Picture Butte where Durrell has been for several years past.

The best wishes of their many friends in this district go with them to their new home.

This is Nomination Day for the bye election to be held August 6th. From 12 noon until 2 p.m. returning Officer Jones will accept nominations for the Warner riding. The only nomination to date is that of L. C. Halmrast of Lucky Strike, Social Credit.

Rumor has it that Ben Ehler, Milk River, will be in the ring as an Independent. Independent. We state it this way because the Provincial President of the Independent Party, J. H. Walker, says that there is no official connection between Mr. Ehler, if nominated, and the Independent party so that it will not be an Independent nomination. This is only hearsay and the seat may go by acclamation.

Master Sergeant H. J. Fromm left Monday to return to his duties with the U. S. Air Force in the state of Illinois.

Barbara, daughter of Mr. and Mrs. Paul Schneider went by plane to Salt Lake City the end of the week for a visit with relatives there.

WEDDING BELLS

Durrell, son of Mr. and Mrs. Fred Romeril, Raymond, and Miss Irene Rowley of Calgary, were married in the Alberta Temple on Thursday of last week, Pres. Edw. J. Wood performing the ceremony. Parents of the groom, and relatives of both bride and groom were present to witness the ceremony and wish the newlyweds godspeed on their journey through life.

Immediately after the ceremony the newlyweds, mother of the groom and his sister went to Calgary where a reception was held at the home of the bride. The following is the Calgary paper report of this function, and we quote:

Honoring Mr. and Mrs. Durrell Romeril, the former Miss Irene Rowley, whose marriage took place recently, Mr. and Mrs. George B. Rowley, parents of the bride, entertained Thursday evening when 30 guests were present.

Receptions of red and white peonies and garden flowers were used throughout the evening. The lace covered table was centered with a three tiered wedding cake, flanked by tall pink tapers and pink carnations in silver vases. Mrs. R. W. Griffin and Mrs. Edwin Johnson presided at the tables.

Miss Elizabeth Romeril, Mrs. D. H. McMillan, Mrs. J. R. Houghton, Mrs. Katherine McKinnon, Mrs. Evelyn Kippen and Miss Jean Rowley assisted in serving.

Out of town guests were Mrs. W. W. Romeril and Miss Elizabeth Romeril, Raymond; Mr. and Mrs. William Rowley, Cardston; and Mr. and Mrs. Edwin Johnson, Turin.

The happy young couple will make their home on the Romeril ranch east of Picture Butte where Durrell has been for several years past. The best wishes of their many friends in this district go with them to their new home.

KITCHEN — PENNETT

Maureen—I'd like to get a book, Librarian. Something light or heavy?
Maureen—Doesn't matter, I have my car outside.

Maureen—I am sorry you are leaving us, Jane. But, of course, if you are going to better yourself I—
Maureen—"Oh no, Madam, I am going to be married."

The six-year old was seated at the breakfast table one morning, when, as usual, eggs were served. The little tot surveyed them for a moment and solemnly said: "I wish to goodness hens would lay something besides eggs."

Miss Molly, daughter of Mr. and Mrs. D. A. Bennett, Raymond, and Charles Wm. Kitchen of Regina, Sask., were married at the Bennett home last Thursday afternoon with Bishop L. L. Palmer officiating. The ceremony of the bride's family were present for the wedding after which a supper was held with the family and a few friends, preceding the departure of the newlyweds for their new home.

Molly is a Raymond girl and will take the best wishes of her many friends in Raymond and district for the happiness and success of she and her husband in their future life.

COMMONSENSE IN ADVERTISING

If there is any time when advertising is good, but for a firm virtually to abolish its advertising campaign for this practice. The future simply because it is finding the credit market is an almost self-evident fallacy. It is an admission that advertising brings in new business but uncertain except to prophesy? ness, and yet a deliberate rejection of those potential new customers without whom no business can have any lasting prosperity. Every enterprise

must constantly add new customers. Over a period of time some of the old customers are certain to go out of business or be taken away by competitors. Unless they are replaced, the business depending upon them soon finds its market growing narrower and narrower.

It is not foolish, to spend money for advertising even though new orders can't be filled for awhile. The longer the emergency lasts, moreover, the greater the likelihood that the non-advertiser will be forgotten.

In recent years there has been too much advertising for the quick turn. It is written and placed to bring quick results, and unless the return comes in immediately, the campaign is considered a failure. Of course, there's a glib rationalization for this practice. "The future is uncertain, so we can't risk long-term advertising programs."

When was the future anything but advertising brings in new business but uncertain except to prophesy? ness, and yet a deliberate rejection of those potential new customers without whom no business can have any lasting prosperity. Every enterprise

FROM CANADA TO CALCUTTA

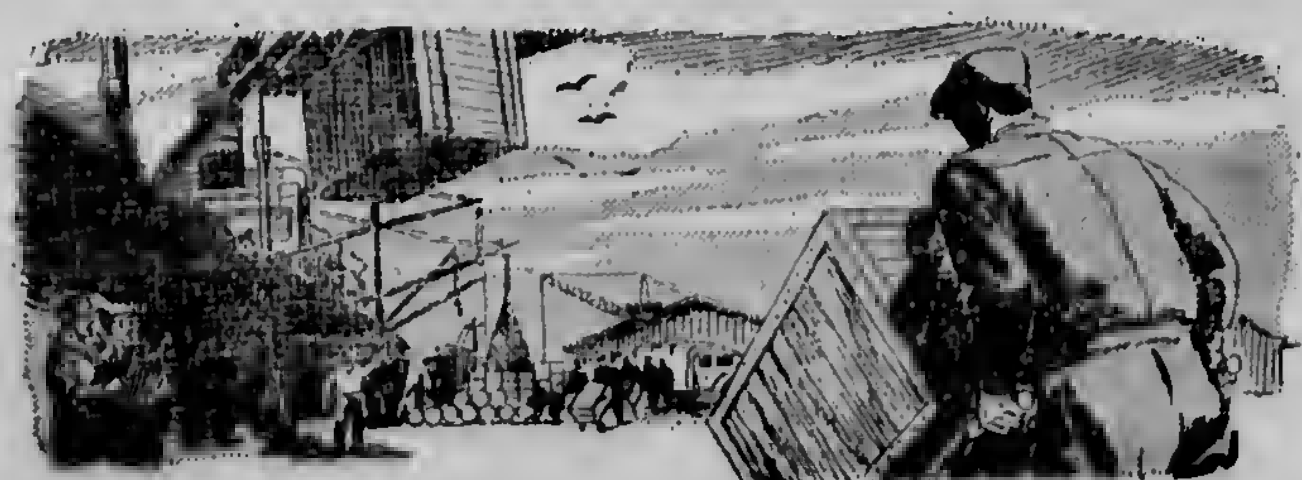

Your bank is a link between the man in Canada who has goods and services to buy or sell, and his customers abroad.

The business of your bank is not all done in dollars and cents. It renders valuable service to Canadian business in the far-off market places of the world, overcoming the obstacles of strange currencies, be they pesos or piasters, escudos or rupees.

Through its commercial correspondents and business connections all over the globe, your bank often has the specialized information necessary to bring buyer and seller together, no matter how far apart they live.

Your bank is able to gather information on the reliability of foreign firms, to handle letters of credit, to arrange the complicated exchange of funds, performing an individual, intricate and inexpensive service to importers and exporters alike.

This feature of Canadian banking has a direct bearing on your welfare. It has, through many years, developed the sale of Canadian goods abroad, resulting in more jobs for Canadian men and women.

NEWS NOTES

Walter Gould is home on a three months' leave from his training at Currie Barracks, Calgary.

The Stake Presidency and Stake Clerk, Elders P. Geo. Wood, Heber F. Allen, M. T. King and Wm. A. Anderson, with Miss Kathryn Allen and S. I. May were in Tyrell's Lake Sunday afternoon for a Conference of the three branches of this Stake. A very interesting two hour meeting was held where the branches were reported by their Presidents, and inspiring messages were given to the people by the members of the Stake Presidency.

Mrs. and Mrs. Thos. Allen returned Sunday after a two weeks holiday trip. Mrs. Allen must be in good luck, as she has been in good luck since she left the end of the week for a two weeks vacation to Pacific Coast points. During Mrs. Allen's absence Jo is in charge at the elevator.

Lt. Bob Kinsey, Navigator with the U.S. Air Forces is home on leave before reporting back for posting to the Pacific Theatre. Bob is looking fine and is very glad to be home for a visit.

Allan Adams, who was seriously injured in Rosemary district about six weeks ago, is recovering rapidly and is able to work again, being out in the hayfields these days. Mrs. Adams says his improvement has been very rapid and the cuts he received when dragged by the horse are healing very fast and almost without a scar.

WEEKLY LETTER WINTER WHEAT

Winter Wheat still continues to grow in popularity amongst Southern Alberta farmers. During the war years it has for several reasons, proved a very desirable crop to grow. At the present time it is selling at a premium of ten cents per bushel over spring wheat, and there has been a definitely attractive premium for it practically throughout the war years. Probably the other greatest advantage in favour of winter wheat is the fact that it helps to solve the labour problem, which has become increasingly difficult since the war began. Winter wheat ripens about two weeks earlier than spring wheat, and therefore, extends the harvesting season by that extent.

Winter wheat has given a slightly better average yield per acre over a 20 year period than spring wheat at the Lethbridge Station, and while small amounts of winter killing has occurred in certain years, only one complete failure was experienced during this long period of years.

Experimental results indicate that the best time to seed winter wheat is the first week in September. Disastrous results from root rot have frequently been experienced in Southern Alberta from too early seed ing. Disappointment has also occurred quite often when treatment for root rot has been omitted.

A hardiest variety is sometimes preferred on account of being more easily threshed. Jones Pile is the most commonly grown variety of this class in the district at the present time, and it is probably the most desirable hardiest variety available at present. It should be remembered, however, that it has a very definite tendency to shatter, and it is also less winter hardy than Kharkov, the standard variety for the district, or the improved strain of it known as Kharkov M.C. 22.

The area where winter wheat grows best in Alberta is in the south west corner of the province. Lethbridge is located about in the centre of this area.

MEN FOR HOME BUILDING MUST BE SECURED

Home building is highly essential to overcome pressing housing shortages, and to provide dwellings for the Forces as discharged.

Shortages of workers for building homes and for producing the building materials are threatening to impede Canada's program for the construction of 50,000 homes as soon as possible.

All men experienced in home building or in producing building materials, who are not now working in either of these industries, are urged to apply to the nearest office of the National Employment Service immediately.

Men experienced at home building or producing supplies, if now in other essential work, will be given permits to work at jobs which will assist the home building program.

All men, not now at house building nor producing supplies, who can fill a job in this program, are urged to answer this call.

Apply at once at the nearest office of the National Employment Service.

COLOR IN THE HOME OF THE FUTURE

On Ave Road Cedarvale close to Toronto, is rising the "workman's" lifetime home" under the auspices of the Workers Educational Association—a home of the future, color-scheme to meet requirements of the Reconstruction period.

Colors which induce a feeling of rest predominate in the decoration designed by Gustav Hahn, R.C.A., O., S.A. of the Ontario Academy of Art, for the new home of seven rooms. In choosing his colors, Mr. Hahn has worked in the modern painting rule that furnishings, rather than the walls or ceilings of a home, should provide the color motif of each room. "Strong colors do not form a background for anything," says Mr. Hahn. "Walls and ceiling should be neutral in color. Pottery, furniture, rugs and the different complexions of people in a room will provide its color."

"A bedroom, for instance, should never be in strong colors. Light shades of color give an illusion of space, strong colors make one feel hemmed in, give one a sense of claustrophobia."

Mr. Hahn suggests that a bedroom with a north exposure should be finished in warm shades, light colors with a yellowish base and a touch of red. A room with a southern exposure, inclined to be hot in summer, would be finished in cool colors such as blue or green.

The front door of the model workman's home in Cedarvale will be finished in a dull, dark green "because it won't show marks nearly as much as a light colored door" says Mr. Hahn.

The short hallway will be in buff or dull gold. The living room will have walls of a soft grey green, with the ceilings a much lighter shade of the same color to give the illusion of added height. Baseboards and window sills will be in cream, while stronger color will be supplied by the blue-black marble fireplace and by drapes and furniture coverings.

The dinette which opens off the living room, conforming with modern practice of guarding against color clashes between rooms which are readily visible, one from other, the kitchen will be in cream or rust.

The ground floor bedroom, which looks out towards the west and north, is to be finished in a warm bronze tone. One upstairs bedroom will be painted in a warm peach shade, while the third room—with a warmer exposure—will be finished in a light cooling blue-green. In each case the ceiling will be in lighter tones of the same color as on the walls.

The color scheme of the model home provides a number of interesting ideas that many home owners may take advantage of, in whole or in part, in redecorating their own homes. For the benefit of amateur painters starting any such project, here are a few tip-offs—some of which may be new, and others which are generally well known but which bear repeating because of their fundamental importance:

Use a good quality paint—cheap paints never pay.

Use a good quality brush—the same thing applies.

Thin paint only according to directions from the manufacturer—don't upset his carefully worked out formula by "stretching" paint through the addition of oil.

Stir the paint thoroughly. (That's an obvious one, but its surprising how many people ignore it.)

Make sure the surface to be painted is dry and absolutely free of dirt or grease.

Make your coatings light. Two light coats are infinitely better than one heavy one.

Let each coat dry thoroughly before applying the next one.

Use a specially prepared under coating for the first coat if you are covering a surface not previously painted. You'll get a better looking, longer lasting job.

Messrs. J.D. Hall and C. B. Alfred were in Stirling last Saturday afternoon for the funeral services of Howard Ninley who passed away there suddenly Thursday afternoon from a heart attack.

IN MEMORIAM

In loving memory of our dear father, John Hyde, who passed away May 14, 1945.

Loving and kind in all his ways. Upright and just to the end of his days. Sincere and kind in heart and mind. What a beautiful memory he left behind.

—Deeply missed by the Family.

Monty Whitbeck arrived home the first of this week for a visit with relatives and friends and is to report back for further duty.

DR. K. W. NEATBY

Director

Line Elevators Farm Service

Winnipeg, Manitoba

Cereal Smuts, Etc.

In January, 1944, we announced our intention to offer to farmers a seed examination service including identification of disease and weed seeds as well as of germination. We have devoted the past year and a half to studying methods and securing the necessary equipment and will be ready to proceed with the work this fall. Ours is the only laboratory in Canada offering a service of this kind. Besides making tests for smut and mechanical damage to seeds, we shall examine all samples coming out of the grain elevators for disease symptoms and advise respecting seed treatment accordingly. This service is provided without charge.

It is very important that farmers inspect their own fields and, if doubtful about the type of smut present, send a sample direct to Line Elevators Farm Service, Winnipeg, or take it to a local Line Elevator agent who will forward it to us for identification.

Losses caused by cereal smuts are very great and, with the exceptions of loose smut of wheat and true loose smut of barley, they can be controlled with comparatively little trouble and expense.

Ask your local Line Elevator agent for a leaflet dealing more fully with this subject in which the various smuts are described.

REBUILT TIRES
